

Construction Notice

May 10, 2024

Project Update:

The Ladyface Greenway Project is anticipated to begin construction in the summer of 2024. In preparation for building the permanent structure over the channel, the City will require soil testing in various locations. On Friday, May 10, 2024, one testing location will be drilled and backfilled.

Work Activities:

The City will conduct exploratory drilling for the purpose of determining soil conditions where the permanent structure will be built. One 12" hole will be drilled and backfilled.

Duration:

Date: Friday, May 10, 2024

Start time: Approximately 7:00AM

Duration: Approximately 4-5 hours. If work is not completed before noon, activities will stop from 12:00PM - 2:00PM

Location:

South side of channel, east of existing pump station at approximate area shown below.

WHAT TO EXPECT

-  Limited construction crews and vehicles on site.
-  Minimal disruption from construction noise and vibrations.
-  Dust will be monitored and controlled.
-  No vehicle access or parking restrictions.
-  This testing activity is preliminary to the project construction schedule.
-  Public outreach notices and meetings details will be shared prior to construction start date.

Please be aware that due to the dynamic nature of construction and potential weather delays, certain work activities may take longer than initially anticipated.

We appreciate your patience and understanding as we work to complete the project efficiently and safely!
